AND EMERGENCY MANAGEMENT

April 28, 2022

The Honorable Rosa DeLauro
Chairwoman
Committee on Appropriations
Washington, D.C. 20515

The Honorable Kay Granger
Ranking Member
Committee on Appropriations
Washington, D.C. 20515

Dear Chairwoman DeLauro and Ranking Member Granger,

I am requesting funding for the Reclaimed Water Infrastructure Project in fiscal year 2023. The entity to receive funding for this project is the Clark County Water Reclamation District and is located at 5857 East Flamingo Road, Las Vegas, NV 89122. These funds will support the removal of old water lines (including obsolete asbestos-containing pipe) and the installation of new water lines, meters, and valves, and associated construction activities (dewatering, landscape restoration, quality control, etc.). These upgrades will support a pressurized mainline which provides Las Vegas constituents with access to reclaimed water that has exceeded its useful life. The pipeline has failed on more than one occasion over the past few years, requiring that its use be decommissioned. With Nevada set to receive less water from the Colorado River as the federal government limits water allocates due to falling supply, it is critical that existing water resources are maximized whenever possible. Water lost through failing water delivery infrastructure must be avoided. This project will help ensure the integrity of water delivery infrastructure to minimize unrecoverable losses of reclaimed water. I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

A handwritten signature in black ink that reads "Dina Titus".

Dina Titus
Member of Congress
